Invitation to Medical Students to 40th Annual Scientific Congress of the Royal College of Surgeons of Thailand, 23-27 August 2015 at the Bangkok Convention Center, Centara Grand at CentralWorld, Bangkok, Thailand

On behalf of the Royal College of Surgeons of Thailand, it is my pleasure to invite medical students of penultimate and ultimate/senior years of your University/Medical College to attend our 40th Annual Scientific Congress jointly held with the 46th World Congress of Surgery of the International Society of Surgery from 23-27 August 2015 at the Bangkok Convention Center, Centara Grand at CentralWorld, Bangkok, Thailand.

The Congress will certainly be a great cultural and scientific event and a further opportunity for all surgical subspecialties to meet and update surgical developments and innovations from around the world and to enhance a mutual exchange of knowledge and techniques which will benefit the patients.

In addition, an International Medical Student Activity Program has been organized at the Faculty of Medicine, Chulalongkorn University, Bangkok, from 22-23 August 2015 prior to participation in the main congress from 24-27 August 2015. The goal is to promote the knowledge in surgery and basic surgical skills among medical students, to encourage medical students with interest in any surgical subspecialties to pursue the course of surgical training, both locally and internationally, and to promote the relationship among medical students and surgical staff around the world with no boundaries. The program is anticipated to attract around 250-300 both Thai and international medical students.

For participation, the following should be noted:

1) Activity Contestants

Contestants to participate in the medical student activity program from 22-27 August 2015 should be last clinical year medical students with interest in surgery and English proficiency. Registration fee waiver and complimentary tour to medical schools are offered.

2) Observers

We welcome an unlimited amount of clinical year medical students from each institution who are interested in the medical student program on 23 August 2014 as observers only (accommodation and medical school tour not included).

Medical students from your university are welcome to arrange their surgery elective rotation here in Bangkok during the period. For more information, please visit <https://www.wcs2015.org> or contact Ms. Narumol Pinturong at +666 2716 6141-3.

Your acknowledgement and kind cooperation in this matter would be much appreciated. I look forward to meeting your medical students in August 2015.

Yours sincerely,

Assoc. Prof. Vajarabhongsa Bhudhisawasdi
President, Royal College of Surgeons of Thailand
