Reasonable tuition & one-year programmes

Dutch higher education offers incredible value; programmes for the 2022-2023 academic year will cost just over €2,200 for European Union (EU)/ European Economic Area (EEA) students. For students from other parts of the world tuition depends on your programme, and ranges from €4,300 to €27,250.

The majority of our master programmes take one year. However, there are some part-time opportunities or variations – such as research masters for those who wish to continue to a PhD and executive programmes for professionals – that take up to two years.

“To make it a just society for everyone, we need better policies respecting women and traditions.”

Satya Maia Patchineelam,
PhD candidate

Satya researches how women adapt after development-induced displacement and resettlement; she hopes for preemptive policies protecting the livelihood of vulnerable groups as well as gender equality.
